WHAT IS CODE INNOVATE?

Oracle Code Innovate brings the Oracle Code experience to your organization with a hackfest.

Over the course of three days, learn about emerging technologies such as blockchain, chatbots, kubernetes, and serverless computing together with technical experts and advocates from Oracle. Use the opportunity to explore use case's that are valuable to your business, and work alongside with your peers to bring your vision to reality. Oracle Code Innovate is all about making, breaking, and building real code.

AGENDA

Day 1: IDEATION
Brainstorm on ways to solve your use cases

Day 2: ITERATION
Build out your solution with the help of Oracle engineers

Day 3: INNOVATION
Present your working demo to execs and peers
